## Interesting Town Elections Draws Numerous Voting Fans Out!

One of the most interesting and competitive elections in many moons took place in Didsbury on Wednesday. 'Twas the same in many other parts of our fair province. That's the way it should be.

An unofficial rundown of the results goes thisaway:

### For Mayor —

Metz 277

Lynch-Staunton 162

### For Councillor —

Dickau 373

Shantz 373

Reiber 294

Ludwig 158

'Twas one of the biggest turnouts at the poll, inssofar as Didsbury is concerned, since the town was established as such. Eligible voters were between the 680 and 700 mark; 444 of them turned out at the voting palace.

At last report, shortly after the unofficial account was gathered in on our wire, we have it that the new council will line up this way:

MAYOR — WILFRED METZ

### COUNCILLORS —

CLARENCE REIBER

LAWRENCE DICKAU

RAYMOND SHANTZ

PHILIP ANDREWS

EDWARD KLINERT

GEORGE WILKINS

★

A late report from Olds tells us that the mayor of that town for the next two years will be Mr. Ed Shackleton. New councillors elected were Dr. Burland and Mr. Neil Leatherdale.

★

(Editor's Note): We were definitely disappointed when we heard that Don Mackay was defeated in his attempt to hold the top seat in the Calgary civic government. We like Mackay whether he wears a white hat or no.

• How often a successful executive, far from  
his small-town birthplace — maintains his  
contacts through regular receipt of his  
weekly newspaper.

• There is nothing quite like a small town  
weekly for neighborly news and intimate  
contacts.

• People in the advertising business talk  
about selected audiences — sharply fo-  
cused circulation. They have learned  
from experience that when a publication is  
specially edited to appeal to the specific  
interests of a smaller group of people, its  
opportunities to make sales are multiplied  
many times over.

• The weekly newspaper is that kind of pub-  
lication. Whether its circulation is a few  
hundred or a few thousand, it represents  
effective circulation.

• Gather the towns-people and farm folk  
around you when you advertise. Surround  
yourself with friendly neighbors — deliver

## Weatherman Not Popular Hereabouts . . .

Freezing temperatures and snow during the past week have put a complete stoppage on harvesting in this and many other areas. Could be many crops will remain in their present positions until next spring. A sorry situation, no less. Outside building has also been brought to a halt in most cases due to the inclement conditions. One instance is the tarring job on the Memorial Arena. It's being held up now and the weather will have to change drastically before the proposed aluminum top can be laid on. Sounds like one of those years when you can't win a round.

## Back To Work Please . . .

This year's edition of the "world serious" between the Dodgers and White Sox has passed into the record books and we can all settle down now to the winter sport commitments, spectatorwise as far as we are concerned, due to a middle-age paunch and brittle bones. As has been our policy in the past we will make every effort to support sport of any sort — if you require publicity we're the lads that will produce it for you. (By the way, Miller, Denny and yours truly won a \$25 pot on the last game of the world series, even though we were hoping for a final game the next day).

## Makes Sense To You ? ? ?

The following is a portion of a news report we snaffled from a west coast newspaper. It has to do with unions threatening the boss with a bad time (which any union we belonged to had a habit of doing). We quote: "A minimum fine of \$2,000 and a maximum of \$10,000 or a year in jail was urged Tuesday for employers convicted of unfair labor practices." These figures were included in a resolution passed by the B.C. Federation of Labor at its annual convention. (These lads must have checked things over with Kruschev — from what we read and hear he operates along the same line. That's not for us.

## Another Famous Quote . . .

"A successful man is one who earns more than his wife can possibly spend. A successful woman is the wife who manages to spend it all just the same."

NOTES FROM  
The  
District  
Agriculturist  
HOWARD  
FULCHER

There are different ways of cultivating in the late fall which will be beneficial.

Deep tillage with cultivators should be used on fallow fields especially if perennial weeds are a problem. This stroke will open up the soil to the frost to the degree to the quash roots or the running root systems. In addition to this it allows for moisture penetration and the ridges prevent excessive run-off in the spring.

On stubble fields where perennial weeds are the main problem, the harmful effect to the weeds is the same. Heavy duty cultivators will not plug in the straw trash but will instead cut the heads of the plants portion of the straw in the soil. Again the mechanical breaking of the soil allows for better moisture penetration.

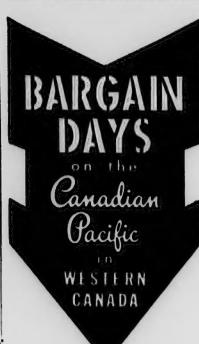

If the main problem is annual weeds or volunteer grain, surface tillage is best. This can be done with tiller discs or disc harrows, the effectiveness of each depending greatly on the amount of straw present. In an emergency tillage is preferred, the trash breakdown will be speeded up and an earlier, better weed growth in the spring will result. This of course will allow for an effective weed killing cultivation in the spring before seeding.

When fall tillage is carried out the tiller or discer blades must be sharp to cut the straw and penetrate the soil. Cultivators will do best for mechanically opening the soil if the spike teeth are used and a depth of approximately six inches is maintained.

## CHRISTIAN SCIENCE

The healing and redemptive power of the Christ, Truth, will be explained in the Lesson-Sermon entitled "Doctrine of Atonement" at Christian Science services Sunday Matthew's account of the healing of the man by Christ Jesus (8:2-4) is included in the passage to be read from the King James Version of the Bible.

From "Science and Health with Key to the Scriptures" by Mary Baker Eddy this selection will be read (19:6): "Jesus aided in reconciling man to God by giving man a truer sense of Love, the divine Principle of Jesus' teachings, and this truer sense of Love redeems man from the law of matter, sin and death by the law of Spirit, — the law of the divine Love."

READING INABILITY  
SAID CRIME CAUSE

Montreal eye specialist, Dr. J. V. Nicholls says juvenile crime often has a connection with difficulty in reading at school.

A youngster might become increasingly sensitive and develop an emotional block because he cannot keep up in reading at school and because he has avoided it at home, Dr. Nicholls told the Canadian Ophthalmological Society last week.

"Eight per cent of delinquents in New York have a reading disability. I'm not saying that because they can't read they go out and stab people, but there is no doubt that delinquency and poor reading are often linked together."

Seven and 16 per cent of otherwise normal children are retarded readers, said Dr. Nicholls. Ten times more boys are affected than girls, who are usually about six months ahead of boys in mental development when they leave school.

He said most cases of slow reading by normally intelligent children are due to emotionally factors, not poor eyesight.

## HELLO HOMEMAKERS:

The people I already met in my  
new church have convinced me that  
I will be enjoying my work just as  
Miss Carney had this last season.

With the cool weather we have  
been having, I am sure all you  
mothers have been thinking about  
winter clothing for your children.

WHAT TO LOOK FOR WHEN  
BUYING CHILDREN'S CLOTHES

A mother should consider quality  
as well as price when she buys  
clothes for her children. She should  
learn to look for value — both in  
fabric and in workmanship. These  
are questions she should ask of  
even the smallest purchase of clothing:

Is it the correct size: does it  
fit comfortably?

Is it becoming?

Will it wear well?

Will it keep its shape?

Is there minimum shrinkage?

Is the color fast to sunlight  
and washing?

Light pastels are becoming to the  
infant's soft coloring — brighter  
tints for the lively youngsters.

The mother's next thought regarding  
the garment under consideration  
should be workmanship. She should  
look for:

— Fine stitching, evenly stitched  
seams and well finished edges.

— Strain points reinforced or bar-  
tacked, pockets double stitched.

— Buttonholes firmly bound — or  
stitched very closely.

— Medium sized, round flat but-  
tons sewed on securely.

— Deep hem and pleats to allow  
for growth.

— Round hemhole and crotch to  
allow freedom of movement.

— Strong wide binding to make a  
sturdy placket for those gar-  
ments with a drop seat.

— Well finished openings, easy to  
manage and large enough for  
easy dressing.

— Weight of the garment sup-  
ported from the shoulders to prevent  
slipping and irritation; and to  
promote good posture.

## CHILDREN'S SHOES

Suggestions which serve as an  
important guide when buying shoes  
are as follows:

1. Examine old shoes to note  
whether or not they are still the  
right size. If the soles are curled  
up at the tip, chances are the  
shoes are getting too short. Worn  
linings indicate that shoes may be  
too small.

2. Have foot measurements taken  
properly. Don't shop without your  
child if you can possibly help it.

3. Make the shoe store the first  
stop on the day.

4. Never hand down shoes from  
one child to another.

5. Don't try to save your pennies

## Squirrel Cage . . .

DRINK PLEASE ! ! !  
In the dead of night, small Tom-  
my awoke from his mother: "May I  
have a drink of water?"

"Go right back to sleep, Tommy",  
his mother called. "I put a pitcher  
of water on your table before I went  
to bed."

Ten minutes later, Tommy called  
again. "I want a drink of real cold  
water."

"Tommy", his mother said sternly.  
"If you say that again, I'll get up  
and spank you."

An ominous silence prevailed for  
five minutes. Then Tommy called  
again. "Mother, when you get up  
to spank me, will you get me a drink  
of real cold water?"

"Another CHUCKLE . . ."

A man who moved into a well-  
to-do but stuffy neighborhood was  
mowing his lawn one hot day with  
his shirt off. After several minutes  
had passed, a patrol car pulled over  
to the curb and the cop walked to  
the man.

"I don't know that you are  
breaching the law?" the cop growled.  
"We don't permit indecent expos-  
ure in this town."

The man, convinced he was acting  
perfectly, innocently shrugged  
his shoulders.

This exasperated the cop.

"Why, what would people say if  
your wife mowed the lawn dressed  
like that?" the cop said.

"They'd say I married her for her  
money," the man replied.

The cop drove away without an-  
other word.

RUGBY W.I. HOLD

6. Keep a careful check on your  
child's socks, too, making sure they  
are not too large nor too small.

7. Avoid extra heavy shoes, for  
they can hurt delicate young feet.

## DISTRICT NEWS

## M.V.B.C. NEWS

(From Our Own Correspondent)

College opened with registration on Tuesday. We expect to have about 48 to 50 students by the beginning of next week; a few are late comers. We have students from Idaho, Washington, Indiana, Ontario, B.C. and Alberta. You will get acquainted with them as the winter progresses.

President and Mrs. Taylor accompanied Mr. and Mrs. Harold Oke to the Gideon Banquet on Saturday evening in Calgary.

This past week Mr. Einer, an evangelist, came with a well known speaker in chapel. Mr. Anderson came from Iceland originally, was brought up a Mormon, but was led from this religious cult a few years ago by a Christian Jew in Los Angeles where he lives. His story is a most interesting one, and he spends much time speaking in churches on the subject of Mormonism and what it means.

M. A. Saitzak was on campus for his first class on Friday. This promises to be an excellent class, and the students are very enthusiastic.

The music classes are well organized, and Mr. and Mrs. Roger Moyer are busy people indeed. We appreciate the fact that our young people can now get excellent training in this important subject.

Some of our students will be most happy to get part time jobs when need help. We know that most of them will be working in the house or fields and a call at the college would make it possible to arrange time for it.

Friends of Grace Eby will be happy to know that she has had a successful surgery on her facial injuries in the accident of last week. Mrs. Venstra will also have surgery soon, and we trust that both of them will suffer no ill effect in the future. Ted is in school and will take up his class work the beginning of the week.

On Friday evening a faculty reception was held in the college. Because of the new members on the faculty, and the erection of a president's home, students were divided into groups and visited faculty homes before meeting in the dining room. There had been progress in the chapel during lunch with Mr. Moyer in charge. Mr. Taylor showed pictures of past events in the college life.

## BERGEN NOTES

(From Our Own Correspondent)

Mrs. Esther Clemens of Edmonton was a weekend visitor at the home of her brother, Mr. Endrid Mjolsness and family.

Word was received from Mr. and Mrs. Fred Thomassen who recently moved to Olds. They say they are giving up the weather and their new location, but they miss their friends at Bergen.

Prior to their departure, Mr. and Mrs. Thomassen were presented with a linen table cloth and napkins from the Bergen Club; a quilt from the Ladies Aid; A purse of money from the community and numerous other gifts from friends and neighbors.

They came to the Bergen district from Fleet, Alberta, in 1934.

The road east of the Bergen hall is in the process of being widened. The district was without power for several afternoons when some power poles were being moved.
